

DennisCodd Vision

The customer satisfaction is the secret of success of the organisation. We work with ethics and sincerity. We adhere with the quality standards and user friendliness in developing the software.

Mission

We work like masters to get the maximum satisfaction from the client. We give continuous support until the client feels our support is not required. The way we work is innovative and unique by understanding the customer needs.

Moto

Our services mainly distinguished in JAVA with Oracle and .Net with SQL Server. We have specialized team to cater the needs of Oracle Applications Implementations and Oracle Data base Administration and development. We adhere to the quality and unlimited customer service. Customer satisfaction is our motto.

DennisCodd

DennisCodd name we inherited from the inventor of C language Dennis Riche and EF Codd who established Codd Rules in Oracle RDBMS. Put together we named our company as DennisCodd. The aim of the company is to get high proficiency in programming skills as well as RDBMS Concepts.

Business Ethics

We provide the customized software solution to the local clients with full pledged automated paper less office solutions, even though the client pays according to the budget oriented emoluments. DennisCodd is one of the growing organizations designed their work standard on the unique management systems for future aspects of IT and Business developments and services. The management criterion is to develop the remarkable software solution in "Oracle Applications, Java, .Net, D2K, 3D Animation, Maya Software animation Solutions and Web Based Technological Solutions "for Indian Info Market.

Management

DennisCodd is started by highly versatile experienced Software Professionals at 0 level stages. It has been driven by ethics and customer satisfaction orientation methodology. The Management never feels the supremacy and work with team as first workers of the organisation. DennisCodd Management always follows the equality and integrity with the employees of the organisation. The Profit of the Organisation will be shared with the charitable activities and Social Development Program. The important quality of the Management is knowledge transfer to the every one.
